

REMARKABLE CLOSING-OUT SUMMER SALES

This is the season of unusual bargain opportunities. The stores, opposed to carrying goods of one season over into another, take unusual price-cuts in all their summer goods to assure quick and complete clearance. Represented, therefore, on this page are bargains of rare importance. Probably no one page of any newspaper ever contained such wonderfully valuable news for the careful, economical purchaser.

BE SURE AND COME EARLY TOMORROW!

The low prices we quote for tomorrow and all next week will make a quick clearance of every summer garment in our wardrobes. New, fresh merchandise is the keynote of the "PATTEE" merchandising policy—hence, when the time has arrived for our final clearance for the season, no consideration is given to the cost or the former selling price—we make a price that will sell the garments quick. Let us emphasize—We never carry any stock over from one season to the next, so that our entire line of summer garments are at your disposal at prices a fraction of their actual value. As some of the items are limited in quantity it would be wise to come early tomorrow.
